SUBJECT INDEX

Abdominal pain, in diabetes mellitus, vs. health perception, 72
Acquired immunodeficiency syndrome. *See* Human immunodeficiency virus infection
Addiction, fear of, in sickle cell pain management, 187
Administration, organizational redesign effects on, 18
Adolescents, motherhood risks in, predictors of, 81
Adverse drug reactions, in elderly persons, 220
African Americans
  adolescent childbearing risk prediction in, 81
  diabetes mellitus in, symptoms vs. perception of health, 72
  HIV infection in
    research participation and, 94
    severity and depression in, 3
Age
  vs. patient education importance, 11
  vs. perception of HIV infection risk, 105
  vs. psychological recovery after coronary artery bypass graft surgery, 155
AIDS. *See* Human immunodeficiency virus infection
Alzheimer's disease, discomfort in, assessment of, 193
Ambulatory care, patient education for, importance of, 11
Analgesia
  for dementia discomfort, assessment for, 193
  for sickle cell disease, nurses' attitudes toward, 187
  for terminal care, ethical issues in, 64
Angina, in women, subjective experiences in, 201
Angioplasty, coronary, in women, subjective experiences after, 201
Antidepressants, for HIV infection, 3
Anxiety
  after coronary artery bypass graft surgery, recovery from, 155
  in orthopedic surgery, in pediatric patients, 119
Assessment of Discomfort in Dementia Protocol, 193
Attitudes, of nurses, concerning pain management in sickle cell disease, 187

Bayley scores, for low-birth weight Latino infant developmental studies, 125
Beliefs, qualitative data collection on, focus groups for, 48
Biofeedback, in hypertension, 29
Blood pressure, reduction of, biofeedback in, 29
Body temperature, maintenance of, in very low-birth weight newborns, thermal mattress for, 210
Braden Scale, validity of, in home health care of older adults, 36
Breast cancer, psychosocial adjustment to, in Korean women, 87

Cancer
  assisted suicide and euthanasia requests in, 64
  breast, psychosocial adjustment to, in Korean women, 87
  in older adults, new paradigm for, 177
Cardiac rehabilitation, in women, program adherence by, 179
Cardiac surgery, in women, subjective experiences after, 201
Caring, in nurse scientists, 44
Chemotherapy, for breast cancer, psychosocial adjustment and, in Korean women, 87
Childbearing, adolescent, risk predictors for, 81
Children. *See* Pediatric patients
Clinical practice, nurse educators participation in, 56
Clinical research, clinical imperative in, 44
Cognitive development, of low-birth weight Latino infants, prediction of, 125
Cognitive therapy, biofeedback with, for hypertension, 29
Comfort
  in dementia, assessment of, 193
  in terminal cancer, assisted suicide requests and, 64
Communication
  at end of life, interference with, 64
  in HIV research programs, 94
  interactive, technology for, 173
  lack of, in dementia, discomfort assessment in, 193
  poster presentations for, 100
Computer technology, for interactive health communication, technology for, 173
Condom use, vs. age and perception of HIV infection risk, 105
Conferences, poster presentation at, 100
Congestive heart failure, drugs prescribed for, adverse reactions to, 220
Copyright issues, in scholarly publishing, 1
Coronary angioplasty, in women, subjective experiences after, 201
Coronary artery bypass graft surgery
  psychological recovery after, 155
  in women, subjective experiences after, 201
Coronary artery disease, in women, cardiac rehabilitation in, program adherence in, 179
Cost-accounting systems, 110
Cost analysis, principles of, 54, 110
Cost-benefit analysis, 54
Cost-consequences analysis, 54
Cost-effectiveness analysis, 54
Cost minimization analysis, 54
Cost shifting, in economic analysis, 110
Cost-to-charge ratios, in economic analysis, 110
Cost-utility analysis, 110
Cultural factors, in African American participation in HIV research, 94

Data
  analysis of, of focus group results, 48
  collection of, focus groups for, 48
  missing, causes and prevention of, 225
Death. *See also* Mortality
  assisted, requests for, in oncology, 64
Debriefing sessions, in organizational redesign, 18
Delegation, importance of, in organizational redesign, 18
Dementia, discomfort in, assessment of, 193
Denial, of heart disease, in women, 201
Depression
  after coronary artery bypass graft surgery, recovery from, 155
  in heart disease, in women, 179, 201
  in HIV infection, in Black Americans, 3

[Depression]
Development
delayed, in homeless children, 146
of low-birth weight Latino infants, prediction of, 125
Diastolic blood pressure, reduction of, biofeedback in, 29
Dietary intake, of preschool homeless children living in shelter, 146
Discomfort, in dementia, assessment of, 193
Discounting, in economic analysis, 54
Dizziness, in diabetes mellitus, vs. health perception, 72
Documentation, of focus group data, 48
Dollars per life-year, in economic analysis, 110
Drug(s)
adverse reactions to, in elderly persons, 220
fear of addiction to, in sickle cell pain management, 187
intentional overdose of, requests for, in oncology, 64

Economic issues
analytical methods, 54, 110
in health care facilities, organizational redesign and, 18
in low-birth weight Latino infant development, 125
in poster preparation, 100
Editorials
nursing labor supply, 117
older adults with cancer, 177
recruiting older adults for studies, 63
scholarly publishing, 1
Education
nursing
faculty practice component of, 56
genetic science in, 227
vs. labor supply, 117
poster presentations for, 100
patient
by nurses, importance of, 11
on nutrition, for homeless families, 146
Elderly persons
adverse drug reactions in, 220
cancer in, new paradigm for, 177
HIV infection in, 105
home health care for, Braden Scale validity in, 36
psychological recovery after coronary artery bypass graft surgery in, 155
Electrodermal activity, in biofeedback, in hypertension, 29
Electromyography, in biofeedback, in hypertension, 29
Electronic publishing, scholarly publishing and, 1
Emotional issues
in heart disease, in women, 201
in orthopedic surgery, in pediatric patients, 119
in psychological recovery after coronary artery bypass graft surgery, 155
in requests for assisted suicide and euthanasia, in oncology, 64
Employees, in health care facilities, organizational redesign effects on, 18
Employment environment, organizational redesign effects on, 18
End-of-life, assisted suicide and euthanasia requests in, 64
Ethical issues
in assigning dollar value to life, 54
in assisted suicide and euthanasia requests, 64
[Ethical issues]
institutional review boards and, 171
Euthanasia, requests for, in oncology, 64
Experiences, qualitative data collection on, focus groups for, 48
Expertise, in specific fields, for clinical research, 44

Family
of orthopedic surgery patient, anxiety in, 119
relationships within, adolescent childbearing risk and, 81
Fatigue
in breast cancer, psychosocial adjustment and, in Korean women, 87
in diabetes mellitus, vs. health perception, 72
Fieldwork, clinical, importance of, in clinical research, 44
Focus groups
in data collection, 48
in organizational redesign, 18

Gender differences
in cardiac rehabilitation, 179
in heart disease subjective experiences, 201
in patient education importance, 11
in pressure ulcer development, 36
in psychological recovery after coronary artery bypass graft surgery, 155
Genetic science, impact on research, 227
Geographical factors, in African American participation in HIV research, 94
Grief, assessment of, Spanish-language instrument for, 165

Handwashing, motivation for, 136
Headache, in diabetes mellitus, vs. health perception, 72
Health Belief Model, for sexually transmitted disease risk perception evaluation, 105
Health care institutions, organizational redesign in, employee response to, 18
Health perception, vs. symptoms, in diabetes mellitus, in African American women, 72
Health promotion, education for, importance of, 11
Heart disease
drugs prescribed for, adverse reactions to, 220
in women
cardiac rehabilitation in, program adherence in, 179
subjective experiences with, 201
Heart rate, in biofeedback, in hypertension, 29
HIV infection. *See* Human immunodeficiency virus infection
Home health care, Braden Scale for Predicting Pressure Sort Risk in, 36
Home Observation for the Measurement of the Environment, for low-birth weight Latino infant developmental studies, 125
Homeless children, preschool, dietary intake of, 146
Hope, in breast cancer, psychosocial adjustment and, in Korean women, 87
Hospitals, organizational redesign in, employee response to, 18
Human immunodeficiency virus infection
in black Americans, severity and depression in, 3
research on, African American community involvement in, 94
risk of, perception of, in low-income adults, 105
Hunger, in preschool homeless children living in shelter, 146

Hygiene, hand, motivation for, 136
Hypertension, biofeedback in, 29
Hypothermia, prevention of, in very low-birth weight newborns, thermal mattress for, 210

Infants
  low-birth weight, of Latino background, development of, prediction of, 125
  very low-birth weight, transport on thermal mattress, 210
Infection control, handwashing in, motivation for, 136
Information
  dissemination of, poster presentations for, 100
  importance of, in organizational redesign, 18
  interactive health communication technologies for, 173
Institutional review boards, 171
Interactive health communication, technology for, 173
International columns
  academic faculty practice, 56
  genetics revolution, 227
  interactive health communication technology, 173
  nursing leadership, 113
Interview guides, for focus groups, 48

Job satisfaction, organizational redesign effects on, 18

Knee pain, in diabetes mellitus, vs. health perception, 72

Labor supply, in nursing, 117
Latino infants, low-birth weight, development of, prediction of, 125
Leadership, nursing, 113
Legal issues, in assisted suicide and euthanasia requests, 64
Licensed practical nurses, delegation to, in organizational redesign, 18
Lifestyle modification
  in heart disease, in women, 201
  in hypertension, 29
Loss, feelings of, in organizational redesign, 18
Low-birth weight infants
  of Latino background, development of, prediction of, 125
  thermal mattress for, 210

Malnutrition, in preschool homeless children living in shelter, 146
Management skills, importance of, in organizational redesign, 18
Maternal Confidence Questionnaire, for low-birth weight Latino infant developmental studies, 125
Mattress, thermal, for transporting very low-birth weight newborns, 210
Meta-analysis, of biofeedback in hypertension, 29
Moderator, of focus group, for data collection, 48
Moral issues, in assisted suicide and euthanasia requests, 64
Morale, organizational redesign effects on, 18
Morphine, for terminal care, ethical issues in, 64
Mortality
  in coronary artery disease, in women, cardiac rehabilitation effects on, 179
  in HIV infection, in Black Americans, 3
Motherhood, adolescent, risk predictors for, 81
Motor development, of low-birth weight Latino infants, prediction of, 125
Multidisciplinary teams, for genetic research, 227
Myocardial infarction, in women
  cardiac rehabilitation after, program adherence in, 179
  subjective experiences after, 201

Narcotics, fear of addiction to, in sickle cell pain management, 187
Neonates, very low-birth weight, transport on thermal mattress, 210
Nephropathy, diabetic, vs. health perception, 72
Neuropathy, diabetic, vs. health perception, 72
Newborns, very low-birth weight, transport on thermal mattress, 210
Nurse midwife, integrated academic-clinical education of, 56
Nurse practitioner, integrated academic-clinical education of, 56
Nursing Child Assessment Teaching Scale, for low-birth weight Latino infant developmental studies, 125
Nursing practice, academic value of, 56
Nutrition, in preschool homeless children living in shelter, 146

Oncology, assisted suicide and euthanasia requests in, 64
Opioids, fear of addiction to, in sickle cell pain management, 187
Opportunity costs, in economic analysis, 110
Organizational redesign, employee response to, 18
Orthopedic surgery, in pediatric patients, anxiety about, 119

Pain
  assessment of, in dementia, 193
  management of
    in sickle cell disease, attitudes toward, 187
    in terminal cancer, attitudes toward, 64
  in orthopedic surgery, in pediatric patients, 119
Parental Stress Index, for low-birth weight Latino infant developmental studies, 125
Parenthood, adolescent, risk predictors for, 81
Partnership focused models of care, employee response to, 18
Patient education
  by nurses, importance of, 11
  on nutrition, for homeless families, 146
Patient-focused care, organizational redesign for, employee response to, 18
Pediatric patients
  homeless, nutrition in, 146
  low-birth weight Latino infants, development of, prediction of, 125
  orthopedic surgery in, anxiety about, 119
  very low-birth weight, transport on thermal mattress, 210
Perinatal Grief Scale, Spanish translation of, 165
Peripheral vascular disease, in diabetes mellitus, vs. health perception, 72
Personnel, organizational redesign effects on, 18
Phlebotomy services, organizational redesign impact on, 18
Poster presentation, at conferences, 100
Pregnancy, in adolescents, vs. childbearing, risk predictors for, 81
Premature infants, very low-birth weight, transport on thermal mattress, 210

Pressure ulcers, Braden Scale for, validity of, in home health care of older adults, 36
Prostate cancer, in older adults, new paradigm for, 177
Psychological issues
  in breast cancer, in Korean women, 87
  in interactive health communication technology, 173
  in organizational redesign, 18
Psychotropic drugs, for dementia, assessment for, 193
Publishing, scholarly, electronic publishing and, 1
Pulse wave velocity, in biofeedback, in hypertension, 29

Quality-adjusted life-year, in economic analysis, 110
Quality management, in scholarly publishing, 1
Quality of care
  organizational redesign effects on, 18
  patient education in, 11
Quality of life
  in cancer treatment decisions, in older adults, 177
  in heart disease, in women, 201

Racial factors
  in adolescent childbearing, 81
  in HIV infection, 3
  in patient education importance, 11
Radiation therapy, for breast cancer, psychosocial adjustment and, in Korean women, 87
Rehabilitation, cardiac, in women, program adherence by, 179
Relationships
  in heart disease, in women, 201
  organizational redesign effects on, 18
Relaxation training, biofeedback with, for hypertension, 29
Research
  adverse drug reactions in elderly persons, 220
  anxiety in children's orthopedic surgery, 119
  biofeedback in hypertension, 29
  Braden Scale validity in older adults, 36
  cardiac rehabilitation in women, 179
  clinical imperative in, 44
  development of low-birth weight Latino infants, 125
  diabetes mellitus in African American women, 72
  dietary intake of homeless children, 146
  discomfort assessment in dementia, 193
  employee response to organizational redesign, 18
  focus groups in, 48
  genetics revolution and, 227
  HIV infection
    African American community involvement in, 94
    depression in, 3
    risk perception in low-income adults, 105
  importance of teaching by nurses, 11
  institutional review boards for, 171
  missing data in, 225
  motivation for handwashing, 136
  nurses' attitudes in sickle cell pain management, 187
  nursing labor supply, 117
  organizational redesign impact on, 18
  poster preparation for, 100
  presentation of results at conferences, 100
  psychological recovery after coronary artery bypass graft surgery, 155
  psychosocial adjustment to breast cancer, 87
[Research]
  requests for assisted suicide in oncology, 64
  risk for adolescent childbearing, 81
  sexually transmitted disease risk perception in low-income adults, 105
  Spanish translation of Perinatal Grief Scale, 165
  thermal mattress for very low-birth weight newborns, 210
  women living with heart disease, 201
Resources
  availability of, organizational redesign effects on, 18
  for cost analysis, 54
Respiratory sinus arrhythmia, in biofeedback, in hypertension, 29
Retinopathy, diabetic, vs. health perception, 72
Royal College of Nursing Clinical Leadership Project, 113

Scholarly publishing, electronic publishing and, 1
Scoliosis, corrective surgery for, in pediatric patients, anxiety about, 119
Self-determination, in assisted suicide and euthanasia requests, 64
Self-image, adolescent childbearing risk and, 81
Sexual activity, in adolescents, vs. childbearing, risk predictors for, 81
Sexually transmitted diseases, risk of, perception of, in low-income adults, 105
Sickle cell disease, pain management in, nurses' attitudes toward, 187
Social issues
  in adolescent childbearing, 81
  in African American participation in HIV research, 94
  in interactive health communication technology, 173
  in low-birth weight Latino infant development, 125
  in organizational redesign, 18
  in patient education, 11
  in risk perception for sexually transmitted diseases, 105
Social support
  in cardiac rehabilitation, in women, 179
  in low-birth weight Latino infant development, 125
Spanish, Perinatal Grief Scale translation into, 165
Spielberger's State-Anxiety Scale, in orthopedic surgery, in pediatric patients, 119
Spiritual issues, in assisted suicide and euthanasia requests, 64
Staff, organizational redesign effects on, 18
Stress
  management of, in heart disease, in women, 201
  maternal, in low-birth weight Latino infant development, 125
Suicide, assisted, requests for, in oncology, 64
Support groups, in workplace, organizational redesign effects on, 18
Surgery
  cardiac, in women, subjective experiences after, 201
  coronary artery bypass graft, psychological recovery after, 155
  orthopedic, in pediatric patients, anxiety about, 119
Survival analysis, in cardiac rehabilitation program adherence evaluation, in women, 179
Systolic blood pressure, reduction of, biofeedback in, 29

T lymphocytes, CD4, count of, in HIV infection, vs. depression, 3

Team approach, leadership in, 113
Technicians, delegation to, in organizational redesign, 18
Telecommunications, interactive, technology for, 173
Temperature, maintenance of, in very low-birth weight newborns, thermal mattress for, 210
Terminal illness, assisted suicide and euthanasia requests in, 64
Thermal biofeedback, in hypertension, 29
Thermal mattress, for transporting very low-birth weight newborns, 210
Transcripts, of focus group discussions, 48
Transport, of very low-birth weight neonates, on thermal mattress, 210
Transportation services, organizational redesign impact on, 18
Ulcers, pressure, Braden Scale for, validity of, in home health care of older adults, 36
Visual analog scales, for pain assessment, after orthopedic surgery, in pediatric patients, 119
Wages, in nursing, vs. labor supply, 117
Well-being, perceptions of, in heart disease, in women, 201
Women. *See also* Gender differences
  breast cancer in, psychosocial adjustment to, 87
  cardiac rehabilitation in, program adherence by, 179
  diabetes mellitus in, health perception vs. symptoms, 72
  heart disease in, subjective experiences in, 201
Work environment, organizational redesign effects on, 18
